

One tiny tablet, so many uses

EfferSan is an EPA/List N registered tablet, that when dissolved in water creates a powerful and safer sanitizing and disinfecting solution. The active ingredient Sodium Dichloro-s-Triazinetrione (NaDCC) becomes hypochlorous acid (HOCl) when dissolved in water, which is a mild, low-irritant formula that kills a wide range of pathogens as well as works as a great deodorizer.

THE HIGHLIGHTS

- EPA Registered
- Mild, non-irritating solution
- Sanitizes 99.999% bacteria in 60 seconds
- Disinfects in 5 minutes
- Protects & controls odors, mold & algae
- Avoids "staining" and fabric friendly
- Dissolvable in hard or soft potable water
- Economical & cost effective
- Easy shipping, storage & disposal
