

Professional Grade
SURFACE
Odor Counteractant

FORMULA

#71

Contains Airicide®

**ACIDULATED
FOAM CLEANER**

Removes Soap Scum, Corrosion,
Rust and Hard Water Deposits

RX71 is a highly concentrated liquid cleaner that generates a rich foam and clings to vertical surfaces. It won't run away from the toughest cleaning jobs. Each gallon of this revolutionary formula produces up to 150 times its own volume of deep cleaning foam, making RX71 one of the most economical cleaning products obtainable. RX71 is acidulated (on the acidic side of the pH scale) and removes soil that even more harsh alkaline cleaners will not touch.

Soap scum, lime scale, corrosion, rust, hard water deposits, mildew stains and other soils literally disappear under the RX71 foam, with no hard scrubbing. It contains no abrasives to scratch or dull surfaces and is the ideal cleaner for shower walls, floors and doors, sinks, tubs, display fountains and drinking fountains. In addition to its other benefits, RX71 contains AIRICIDE® Odor Counteractant to deodorize surfaces and eliminate unpleasant odors already in the air.

Description

RX71 is a super concentrated, high foam, liquid surfactant that has been acidulated for fast and thorough cleaning... particularly of scummy, hard surfaces in shower rooms and bathrooms. The rich foam penetrates soil and rinses the surfaces squeaky clean without hard scrubbing in a matter of seconds.

Uses

Removes soap film, lime scale, rust, corrosion, hard water deposits, mildew stains, etc. from shower walls, ceramic tile floors, glass and plastic shower doors, drinking fountains, decorative fountains, etc.

NOTE: Do not use on polished marble.

ACIDULATED FOAM CLEANER

Removes Soap Scum, Corrosion,
Rust and Hard Water Deposits

Benefits

HIGH FOAM: Generates a deep cleaning, clinging foam when used with any foam gun.

VERY ECONOMICAL: The foam does the cleaning, and RX71 makes up to 150 times its volume in quick cleaning foam.

DISSOLVES SOIL: It's acidulated (on the acid side of the pH scale) to penetrate, loosen and effortlessly remove soil that more harsh alkaline cleaners won't even touch.

FASTER, EASIER CLEANING: Most surfaces come clean without any scrubbing at all. Just spray it on, allow a minute or two for RX71 to do the work and rinse off.

FREE RINSING: There's no redeposition of soil. It rinses right down the drain.

SAFER TO USE: Contains no hydrochloric acid. Won't damage quality chrome or enamel fixtures. Won't burn carpets or clothing. Contains no abrasives to scratch or dull surfaces being cleaned.

Directions

RX71 is best applied with a foam producing sprayer, but also may be used with a mop & bucket. Equipment used should be acid resistant. RX71, straight from the container, is highly concentrated and is designed to be diluted up to 4 ounces of product per gallon of water for normal use. Cover entire surface by applying solution liberally and allow to stand a few minutes. Where soil is extremely heavy, light scrubbing with a stiff brush or synthetic pad will speed the job. Rinse with clear water after cleaning, do not allow to dry on surface.

Specifications

Color.....	Purple/Pink
Foaming.....	Generates up to 150 times its own volume
Viscosity.....	Water thin liquid
Odor of Liquid or Foam.....	Pleasant, fruity
Odor Counteractant.....	AIRICIDE®
pH Concentrate.....	1.5+0.5
Hydrochloric Acid Content.....	None
Phosphoric Acid Content.....	20%
Abrasives.....	None
Refractive Index.....	1.3680+0.0010
Storage Stability.....	One year min.
